Veritas NetBackup Remote Migration Service

Reduce risks and cost with a fast, expert installation.

Quickly Migrate NetBackup Systems

The Veritas NetBackup Remote Migration Service helps you rapidly migrate an existing Veritas NetBackup™ system to another NetBackup system. Veritas Professional Services consultants will manage all phases of planning and delivery, providing a solid foundation for a worry-free and successful migration from any NetBackup source to any target (see Figure 1).

Service Benefits

- Decrease the time and effort required to migrate to the NetBackup platform of your choice
- Achieve success and reduce migration concerns and risks with a tested and verified installation
- Improve your NetBackup migration knowledge with personalized demonstrations
- Leverage a cost-effective migration suited to small and midsized NetBackup environments

Realize Fast Migration With Expert Service Delivery

The NetBackup Remote Migration Service is divided into Primary Server and Media Server migration options. Both options include target configuration and functional testing. The Primary Server migration service includes NetBackup Catalog migration and manipulation activities. The Media Server migration service provides required NetBackup storage configuration and a tailored demonstration of the most applicable method(s) to initiate migrations for two (2) backup images you select.

Flexible Migration Options

The NetBackup Remote Migration Service supports most migration situations, including NetBackup Appliances, Flex Appliances and bring-your-own-server platforms. Migrations between originating (source) to destination (target) systems include Primary to Primary, Media to Media and combined Primary / Media to combined Primary / Media. The Service also supports migrations that involve seperating combination Primary / Media or combining Primary and Media systems. Simply choose and combine the SKUs listed below, by catalog size and server role, as needed.

		Primary Server	Primary Server	Media Server
Source Server	Target Server	SKU 24317	SKU 28145	SKU 24318
Primary (Catalog < 600 GB)	Primary (Catalog < 600 GB)	X		
Primary (Catalog 600 GB–1 TB)	Primary (Catalog 600 GB–1 TB)		X	
Primary and Media (Catalog < 600 GB)	Primary and Media (Catalog < 600 GB)	X		X
Primary and Media (Catalog 600 GB–1 TB)	Primary and Media (Catalog 600 GB–1 TB)		X	X
